Definition of Done

Task	Status
Functional search bar	Done
Functional map UI	Done
Functional database	Done
Key features (markers, login, etc.) implemented and tested	Done
Important documents updated and included in the repository	Done
Code reviewed by each team member	Done
Code checked into repository (Github)	Done

Style Guide
- Unique and meaningful functions/variables names - start with lowercase and every word after is uppercase.
- No super long lines.
- Code contains no duplication.
- Visual separation of code blocks.
- Every helper function is intended to do only one thing, suggested by its name.
- Concise comments.
