- **Actions to start doing:**
  - N/A
- **Actions to keep doing:**
  - The team should continue manual testing of application when new versions are pushed to GitHub
  - The team should continue holding several weekly meetings, so that everyone is caught up to speed as frequently as possible
  - The team should continue communicating through our group chat, good communication during this sprint
  - The team should keep letting team members know when project issues arise

- **Work completed/not completed:**
  Completed user stories:
  - *As a user, I want to see markers placed by other users [8]*
  - *As a user, I expect to search for markers and locations [5]*
  - *As a user, I expect the markers to be accurate and reliable [5]*

- **Work completion rate:**
  - 3 User Stories completed over 14 days
  - Around 30 hours of work done during this sprint
  - 1 user story per 4-5 days
  - 1-3 hours of work per day
  - 18 story points completed
  - 11 planned tasks during sprint 3 - completion of 10
    - Only planned task no completed is polishing, we decided that would fit better as a sprint 4 objective
